ADDITIONAL WORKING HOURS																		

EHS (Environment, Health & Safety)				Quality				Productivity			
Particular	UOM	Actual	Details	Particular	UOM	Actual	Details	Particular	UOM	Actual	Details
POKA YOKE (PY) adherence	%		No of wokring PY / Total PYs	FTR	%		Accepted qty / Produced qty	Skill level	%		No of m/p with skill gap / Total m/p
PPE adherence	%		No of M/P adhering PPE / Total M/P	Rework	PPM		Reworked qty / Produced qty	Stability	%		No OK hours / Total no of hours
Near miss	Nos		an incident that did not result in injury, illness, damage – but had potential to do so	Rejection	PPM		Rejected qty / Produced qty	Line Efficiency	%		(BCT x Qty accepted)/Loading hour in Secs
First aid	Nos		An occupational injury which can be treated using first aid box at shop floor / OHC	POKA YOKE (PY)	%		No of non-wokring PY / Total PYs	OEE	%		(AR x PR x QR) /100
Accident - Major, Minor, Severe	Nos		An occupational injury which can't be treated using first aid box at shop floor / OHC	4M Change	Nos		Man : __ MIC : __ MATL : __ Method : __	Productivity	Nos / man		No of OK units / No of man power

Loss Code	TPM Loss	Losss mapping for BSL / NDR		Loss Code	TPM Losses	Losss mapping for BSL / NDR		Loss Code	TPM Losses	Losss mapping for BSL / NDR	
L1	Equipment Failure	Machine Breakdown > 10 Mins		L5	Minor stop & Idle	Error Reset < 10 Mins		L9	Management	No Air, No Water, No Tool	
		Sensor NG >10 Mins				Stoppages less than 10 Mins				No Material, No Operator, No PPC Info	
		SCADA / Conveyor Stoppage > 10 Mins				Robot Nozzle cleaning < 10 Mins				Walking Time, Over Reaching etc.	
L2	Set-up	Line stoppage for Mould Changeover		L6	Speed	Operator not matching Cycle Time		L10	Operating motion	Loss due to Motion of operator	
		Downtime due to Variant Changeover				Line running on reduced speed than standard				Delay in Manpower Deployment on stations	
		Fill-up empty assy line				Robot Speed reduced than cycle time.				Operator present but not available on station.	
L3	Cutting blade change	Hog Ringer Replacement		L7	Defects & Rework	Loss due to defects		L12	Logistics	Line stoppage due to no trolley	
		Spray / Screw Gun Replacement				Loss due to Rework				Line Stoppage to transfer material	
		Die/JIG/Fixture Change				Loss Due to Dismantle / Rejection				Loss due to material transfer from offline	
L4	Start-up	Mould / Chemical Temperature < Specs		L8	Shutdown	Planned Shutdown - training, event, visit.		L13	Measure& Adjust	Line stoppage to measure and correct a part.	
		Air Pressure < Specs				Unplanned shutdown activities w/o approval				Mould running empty to correct parameters.	
		Steam Pressure < Specs				Line stoppage/Empty Moulds due to no plan				Loss due to measurement and correction
